Author Index

Acosta, R., see Stashenko, E.E. (43) 379
Amador-Hernández, J. and Luque De Castro, M.D.
On-line detection for supercritical-fluid extraction (43) 329
Ashraf-Khorassani, M., Taylor, L.T. and Marr, J.G.D.
Analysis of the sulfomycin component of alexomycin in animal feed by enhanced solvent extraction and supercritical fluid chromatography (43) 147
Auerbach, R.H., see Just, U. (43) 209

Bahadir, M., see Kreuzig, R. (43) 403
Bautista, J.M., see González-Vila, F.J. (43) 345
Bente, P., see Berger, T.A. (43) 87
Berg, H., Turner, C., Dahlberg, L. and Mathiasson, L.
Determination of food constituents based on SFE: applications to vitamins A and E in meat and milk (43) 391
Berger, T.A., Fogleman, K., Staats, T., Bente, P., Crocket, I., Farrell, W. and Osonubi, M.
The development of a semi-preparatory scale supercritical-fluid chromatograph for high-throughput purification of 'combi-chem' libraries (43) 87
Berger, T.A. and Wilson, W.H.
High-speed screening of combinatorial libraries by gradient packed-column supercritical fluid chromatography (43) 77
Bernal, J.L., del Nozal, M.J., Toribio, L., Montequi, M.I. and Nieto, E.M.
Separation of ketoconazole enantiomers by chiral subcritical-fluid chromatography (43) 241
Bernal, J.L., see Toribio, L. (43) 251
Björklund, E., Nilsson, T., Bøwadt, S., Pilorz, K., Mathiasson, L. and Hawthorne, S.B.
Introducing selective supercritical fluid extraction as a new tool for determining sorption/desorption behavior and bioavailability of persistent organic pollutants in sediment (43) 295
Bøwadt, S., see Björklund, E. (43) 295
Brachet, A., Christen, P., Gauvrit, J.-Y., Longeray, R., Lantéri, P. and Veuthey, J.-L.
Experimental design in supercritical fluid extraction of cocaine from coca leaves (43) 353
Buskov, S., Hasselstrøm, J., Olsen, C.E., Sørensen, H., Sørensen, J.C. and Sørensen, S.
Supercritical fluid chromatography as a method of analysis for the determination of 4-hydroxybenzylglucosinolate degradation products (43) 157
Buskov, S., Olsen, C.E., Sørensen, H. and Sørensen, S.
Supercritical fluid chromatography as basis for identification and quantitative determination of indol-3-ylmethyl oligomers and ascorbigens (43) 175

Caruso, J.A., see Vela, N.P. (43) 45
Christen, P., see Brachet, A. (43) 353
Crocket, I., see Berger, T.A. (43) 87

Dahlberg, L., see Berg, H. (43) 391
Davidson, G., see Dost, K. (43) 125
Davidson, G., see Just, U. (43) 209
del Nozal, M.J., see Bernal, J.L. (43) 241
del Nozal, M.J., see Toribio, L. (43) 251
Del Rio, J.C., see González-Vila, F.J. (43) 345
Delgado, D., see Lozano, P. (43) 367
Dost, K. and Davidson, G.
Development of a packed-column supercritical fluid chromatography/atmospheric pressure chemical-ionisation mass spectrometric technique for the analysis of atropine (43) 125

Farrell, W., see Berger, T.A. (43) 87
Fluck, M., see Schurig, V. (43) 223

S0165-022X(00)00106-8

Fogleman, K., see Berger, T.A. (43) 87

Gauvrit, J.-Y., see Brachet, A. (43) 353
Gómez, D., see Lozano, P. (43) 367
González, A.G., see González-Vila, F.J. (43) 345
González-Vila, F.J., Bautista, J.M., Gutiérrez, A., Del Río, J.C. and González, A.G.
Supercritical carbon dioxide extraction of lipids from *Eucalyptus globulus* wood (43) 345
Gutiérrez, A., see González-Vila, F.J. (43) 345
Gyllenhaal, O. and Karlsson, A.
Packed-column supercritical fluid chromatography for the analysis of isosorbide-5-mononitrate and related compounds in bulk substance and tablets (43) 135

Hasselstrøm, J., see Buskov, S. (43) 157
Hawthorne, S.B., see Björklund, E. (43) 295
Hughes, J., see Nguyen, A.M. (43) 411

Ibañez, E. and Señoráns, F.J.
Tuning of mobile and stationary phase polarity for the separation of polar compounds by SFC (43) 25
Iborra, J.L., see Lozano, P. (43) 367

Jimenez, J.J., see Toribio, L. (43) 251
Jones, D.J., see Just, U. (43) 209
Just, U., Jones, D.J., Auerbach, R.H., Davidson, G. and Käppler, K.
SFC/FTIR, SFC/APCI–MS and MALDI–TOF-MS for the analysis of siloxane–ethylene oxide copolymers (43) 209

Käppler, K., see Just, U. (43) 209
Karlsson, A., see Gyllenhaal, O. (43) 135
Koinecke, A., see Kreuzig, R. (43) 403
Kreuzig, R., Koinecke, A. and Bahadir, M.
Use of supercritical fluid extraction in the analysis of pesticides in soil (43) 403

Lantéri, P., see Brachet, A. (43) 353
Lockwood, B., see Radcliffe, C. (43) 261
Longeray, R., see Brachet, A. (43) 353
Lozano, P., Delgado, D., Gómez, D., Rubio, M. and Iborra, J.L.
A non-destructive method to determine the safranal content of saffron (*Crocus sativus* L.) by supercritical carbon dioxide extraction combined with high-performance liquid chromatography and gas chromatography (43) 367
Luque De Castro, M.D., see Amador-Hernández, J. (43) 329

Maguire, K., see Radcliffe, C. (43) 261
Marr, J.G.D., see Ashraf-Khorassani, M. (43) 147
Marriott, P.J., see Nguyen, A.M. (43) 411
Martínez, J.R., see Stashenko, E.E. (43) 379
Mathiasson, L., see Berg, H. (43) 391
Mathiasson, L., see Björklund, E. (43) 295
Montequi, M.I., see Bernal, J.L. (43) 241
Morishita, F., see Yaku, K. (43) 59
Motohashi, N., Nagashima, H. and Párkányi, C.
Supercritical fluid extraction for the analysis of pesticide residues in miscellaneous samples (43) 313

Nagashima, H., see Motohashi, N. (43) 313
Nguyen, A.M., Marriott, P.J. and Hughes, J.
Supercritical-fluid extraction of synthetic pyrethroids from wool (43) 411
Nieto, E.M., see Bernal, J.L. (43) 241
Nilsson, T., see Björklund, E. (43) 295

Olsen, C.E., see Buskov, S. (43) 157
Olsen, C.E., see Buskov, S. (43) 175
Osonubi, M., see Berger, T.A. (43) 87
Otterbach, A., see Wenclawiak, B. (43) 197

Párkányi, C., see Motohashi, N. (43) 313
Pilorz, K., see Björklund, E. (43) 295
Poole, C.F.
Progress in packed column supercritical fluid chromatography: materials and methods (43) 3
Pyo, D.
Separation of vitamins by supercritical fluid chromatography with water-modified carbon dioxide as the mobile phase (43) 113

Radcliffe, C., Maguire, K. and Lockwood, B.
Applications of supercritical fluid extraction and chromatography in forensic science (43) 261
Rubio, M., see Lozano, P. (43) 367

Schurig, V. and Fluck, M.
Enantiomer separation by complexation SFC on immobilized Chirasil-nickel and Chirasil-zinc (43) 223
Señoráns, F.J., see Ibañez, E. (43) 25
Serna, M.L., see Toribio, L. (43) 251
Sørensen, H., see Buskov, S. (43) 157
Sørensen, H., see Buskov, S. (43) 175
Sørensen, J.C., see Buskov, S. (43) 157

Sørensen, S., see Buskov, S. (43) 157
Sørensen, S., see Buskov, S. (43) 175
Staats, T., see Berger, T.A. (43) 87
Stashenko, E.E., Acosta, R. and Martínez, J.R.
High-resolution gas-chromatographic analysis of the secondary metabolites obtained by subcritical-fluid extraction from Colombian rue (*Ruta graveolens* L.) (43) 379

Taylor, L.T., see Ashraf-Khorassani, M. (43) 147
Toribio, L., see Bernal, J.L. (43) 241
Toribio, L., Bernal, J.L., del Nozal, M.J., Jimenez, J.J. and Serna, M.L.
Determination of the 2-bromomethyl-2-(2,4-dichlorophenyl)-1,3-dioxolan-4-yl)methyl benzoate diastereoisomers by supercritical fluid chromatography (43) 251
Turner, C., see Berg, H. (43) 391

Vela, N.P. and Caruso, J.A.
Element selective detection for supercritical-fluid chromatography (43) 45
Veuthey, J.-L., see Brachet, A. (43) 353

Wai, C.M. and Wang, S.
Separation of metal chelates and organometallic compounds by SFC and SFE/GC (43) 273
Wang, S., see Wai, C.M. (43) 273
Wenclawiak, B. and Otterbach, A.
Carbon-based quantitation of pyrethrins by supercritical-fluid chromatography (43) 197
Wilson, W.H., see Berger, T.A. (43) 77

Yaku, K. and Morishita, F.
Separation of drugs by packed-column supercritical fluid chromatography (43) 59
